 caesarstone®

# Letter from the *President*

Dear Valued Customer,

As we move through 2025, the year promises to be full of innovation, advancements in sustainability, and continued growth as we lead the way in redefining the future of surface design. Our focus remains on bringing you exciting new surfaces and designs that respond to the evolving needs and tastes of the market.

Since 1987, Caesarstone has been a global pioneer in premium surfaces. This year, we are proud to introduce Caesarstone ICON™, a revolutionary new category of advanced fusion surfaces. The result of years of research and development, ICON™ represents our unwavering commitment to innovation, material integrity, and sustainable design. It sets a new standard in the industry—one defined by progress without compromise.

In addition, we are expanding our Porcelain offering in Canada, with more exciting updates to come in the months ahead.

The health and wellbeing of our partners remain a top priority. We are proud to share that nearly 6,000 fabricators around the world have completed our Masters of Stone program. Now available in over 12 languages, this program continues to provide accessible, vital education to support a safe and healthy working environment across the industry.

We also invite you to visit one of our design centres—a perfect way to experience the latest in Quartz, Porcelain, and ICON™ surfaces, receive expert advice, and connect with clients.

We're energized for what lies ahead and look forward to continuing our partnership as we enter an exciting new era in surface innovation.

Warm regards,

A stylized, handwritten signature in white ink, appearing to read 'Ken Williams'.

# Caesarstone Finishes

Caesarstone offers a variety of finishes, dressing the surface in a way that brings out the best in the design while ensuring it remains long-lasting without the need for sealants or wax.

## Long-Lasting Quartz, Mineral, ICON™ & Outdoor Finishes

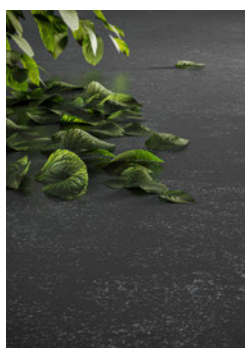

### Polished

High-gloss smoothness attracts light and illuminates with a natural glow.

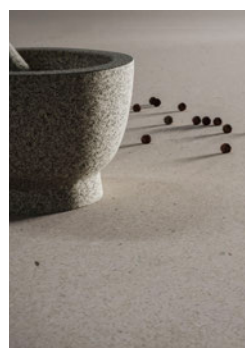

### Honed

Smooth to the touch and gentle on the eye, this finish adds a delicate sophistication to the surface.

### Natural

A slightly textured satin sheen conjures up the warm and grainy touch of stone.

### Concrete

A low light reflection and a slightly textured appearance evokes the sensation of an organic material.

### Rough

With a complex and robust look and feel, it intensifies the depth of the colours. An advanced technology that achieves the effect of coarse industrial materials, but remains smooth for easy cleaning.

## Durable Porcelain Finishes

### Honed

Our Honed finish is smooth to the touch and soft on the eye, offering a special organic luminosity. Its satin sheen reflects light, while retaining a special shine that penetrates the surface to highlight deeper dimensions.

### Silk

This finish covers the surface in a shimmering overlay. The light glides softly over the stone, creating a luxurious appeal that adds a dimension of softness and comfort.

### Ultra Rough

Inspired by the tactility of rough stone, industrial metals and concrete, this finish reinforces the organic nuances of the stone. With a distinctive granular feel, it guarantees high durability and care.

### Stone

Tenderly tactile with a pleasant radiance, this finish has the soothing touch of a semi-smooth stone. Its appearance is that of a weathered rock, which comforts in a genuinely authentic way.

# Care & Maintenance

We produce incredibly durable and nonporous surfaces, so they're virtually maintenance-free. For daily routine care, just follow the simple tips below to benefit from timeless performance and appearance.

## Lifetime Warranty

Our high-quality surfaces require little maintenance and come with a lifetime warranty

## Cleaning Products

Use your regular home cleaning products

## Simple Cleaning

A splash of warm soap water will do (avoid plant oil soaps)

## Preventing Patina

Wipe away any liquid spills and splashes, to keep your surface dry always

## Caring for Dark Surfaces

Patina and stains may be more noticeable. Cream-coloured cleaning products are not recommended

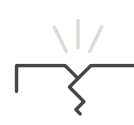

## Avoiding Scratches

Always use a cutting board and clear away sharp objects

## Chemicals

Do not use hydrofluoric acid or materials containing it to clean your surface

## Intact Surfaces

Avoid hard knocks on exposed areas, particularly on edges

## First Cleaning After Installation

- 1 Clean the whole surface thoroughly after installation with soapy water and a microfiber cloth or non-abrasive scourer.
- 2 Dry the surface thoroughly with a paper towel.

## Daily Maintenance

- 1 We recommend wiping the surface with warm, soapy water, a mild detergent, and a clean damp cloth.
- 2 Remove stains as soon as possible for easy cleaning and practical, immediate results.
- 3 To prevent limescale build-up, it is essential to thoroughly wash cleaning material residue off the surface and dry with paper towels.

## Stubborn Spills

- 1 Gently rub the area using a soft cloth or paper towel with an approved cleaner.
- 2 Clean spill in a circular motion.
- 3 Rinse with water, and dry with a soft cloth or paper towel.
- 4 Repeat this process if the stain is still visible.

# Warranty
