Caesarstone

Surfaces that shape your way of life

A Caesarstone countertop lives at the very heart of your home. It's where everyday life unfolds, and lasting memories are made. It's a place for food, family and friends, a canvas for living well.

The surface you choose will affect how you live — day in, day out. With our high performance materials, elevated designs, and decades of expertise, Caesarstone is synonymous with enduring quality and beauty. It's why our name has long been the trusted choice of discerning architects, interior designers, kitchen retailers and professional developers.

In this guide you'll discover what makes us special, and hear directly why our loyal customers love their Caesarstone surfaces so much. Because with Caesarstone, your surface shapes your way of life.

“I’ve had the pleasure of collaborating with Caesarstone to showcase the beauty and versatility of their products for almost twenty years.”

DESIGN HERITAGE

We have
a history
of *looking
ahead*

We've been designing and manufacturing premium engineered stone surfaces since 1987, when we pioneered the first quartz surfaces. Over the following years we perfected the art of making surfaces that matched the beauty of quarried granite, marble and travertine, while exceeding them in performance.

Today, Caesarstone surfaces are recognized around the world for their compelling character. Our skilled research and design teams invest heavily in their craft, studying global trends and experimenting with colour, texture and finish to create collections with lasting visual appeal and satisfying tactility.

Every Caesarstone slab is expertly crafted to meet the highest technical standards – built to withstand daily life in the home and the demands of commercial environments.

Nearly forty years on, we continue to lead the way with innovative quartz, mineral, advanced fusion and porcelain surfaces.

DESIGN HERITAGE

Inspired by a world of *influences*

At Caesarstone, every surface begins with observation. From the motion and beauty of a changing coastline, the stillness and calm of the desert landscape, to the urban textures and patinas seen in our towns and cities, our designers draw inspiration and mood from our environments. We interpret nature's patterns, colours and movement, resulting in evocative surfaces that capture a world of influences.

DESIGN HERITAGE

Interpreted by artisans, refined through *craftmanship*

To inspiration we add intention. From first sketch to final polish, each design is shaped by hands-on craftsmanship. Our design processes evaluate countless materials, and only the finest pigments are chosen. We experiment with how each tone responds to light and shade, and how it interacts with the tactility and finish of the stone itself – developing a final result that balances beauty, function and originality.

WHERE TO START

Creating your *moodboard*

As one of the largest and most visible surface areas in your space, it's preferable to choose your countertop at the beginning of your project when you choose your cabinets. You can work with your own interior designer, or one of our design consultants, to create a moodboard that will inspire and guide your whole scheme. Visit our Design Centres across Canada to see large format slabs and create your moodboard using our evocative selection of paint swatches and accessories.

Step 01

Use Caesarstone samples and cabinet swatches to *find your favourite combination*.

Step 02

Next, layer up wallpaper, paints and textiles to *add depth and texture* to your scheme.

Step 03

Finally, *add material finishes* for handles, hardware, tiles and accessories.

“We chose Caesarstone Lumena Porcelain for its luminous pearl-like surface, subtle veining, and exceptional durability. Its natural stone appearance complements the warmth of the white oak and brass accents, while its porcelain composition offers superior resistance to heat, stains, and scratches. We wanted a beautiful, simple and practical choice for a high-performance kitchen.”

QUARTZ, MINERAL & ICON

Quality engineered stone is *Caesarstone*

When it comes to choosing an engineered stone surface, we've been leading the category since we pioneered quartz countertops back in the 1980s. So, whether you choose Quartz, Mineral or Icon, you can trust in the superior durability, performance and beauty that only comes with the Caesarstone name and heritage.

Caesarstone engineered stone surfaces have many advantages. Unlike marble, granite and other natural stones, all are nonporous, stain and scratch resistant. With no need to seal or treat, your surface will be virtually maintenance-free. Mineral is made with a reduced silica content to deliver the same aesthetic quality and strength as our classic Quartz, with improved sustainability. ICON™, our most advanced crystalline silica-free surface, sets a new standard for safety and sustainability.

May contain traces of up to 1% crystalline silica.

BEYOND EXCELLENCE

Caring for your Caesarstone couldn't be *easier*

We produce surfaces that are incredibly durable, nonporous, stain resistant and scratch resistant, so they're virtually maintenance-free.

Daily cleaning

Simply wipe with water and a mild, non-abrasive detergent on a soft cloth.

Stains

Tea, coffee, wine, turmeric and other stubborn stains can easily be removed using mild household cleaners.

Limescale

Limescale from hard water can be removed using white vinegar.

Protection

We recommend the use of trivets and chopping boards to protect surfaces from thermal shock, excess heat, and scratching.

Things to avoid

Caesarstone surfaces do not require any sealing. Avoid natural stone cleaners as they may contain oil or wax, and avoid using harsh chemical cleaners.
